

Graphixx

***Machine efficiency demands the smoothest sheet.
Demand Graphixx!***

Customer Focused, Technology Driven

 **WEAVEXX[®]**
XERIUM TECHNOLOGIES, INC.

Graphixx

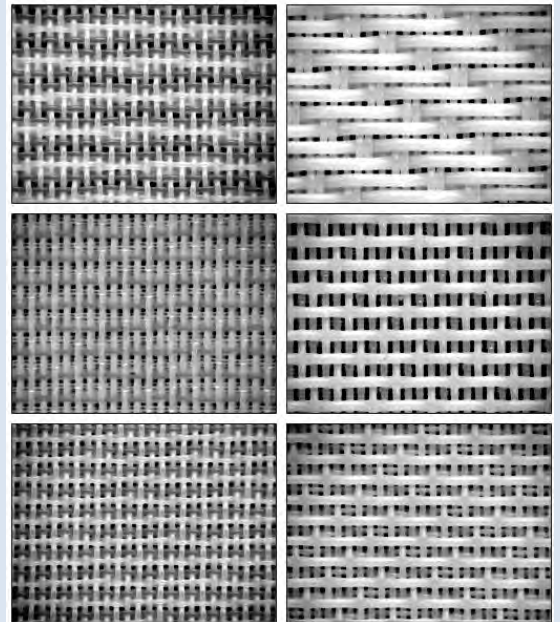

Advanced Packaging-Grade Forming Fabric Technology Engineered for Enhanced Coating and Printability.

The **Graphixx** family of triple-layer forming fabrics is specially engineered for demanding paper machine applications requiring sheet smoothness, uniformity, and durability. Our patented weave technology provides uncompromised dimensional stability without interlayer wear. Let **Graphixx** help make a step change on your machine!

- Graphixx XT**
- extra tough, high wear volume for maximum life potential
 - fine mesh, plain weave surface for smoothness, printability and coating
 - the most durable of the Graphixx family

- Graphixx AP**
- a superior combination of surface uniformity and fabric life potential
 - finer mesh, plain weave surface for excellent smoothness, printability and coating

- Graphixx SS**
- super smooth, the ultimate printing surface with the finest mesh packaging fabric available
 - raising the bar for smoothness and printability
 - your customers will thank you!

Graphixx Properties			
	Graphixx XT	Graphixx AP	Graphixx SS
Fiber Support Index	140 - 150	130 - 180	170 - 210
Wear Volume	8.5 - 9.5	4.5 - 7.5	4 - 6
Permeability	330 - 450	300 - 600	320 - 550
Caliper	.040"-.042"	.031"-.035"	.027"-.031"

Which **Graphixx** Fabric Is Right for You?
