

# Everguard

Efficiency grade rubber covers designed for fabric, felt and paper carrying rolls.

## CARRYING ROLL COVERS

### Technology

Developed by Stowe Woodward's global research and product engineering team, Everguard roll covers provide excellent performance for fabric, felt and sheet carrying roll applications in both wet and dry positions. Everguard covers are available in plain, and grooved configurations.

### Benefits

- high value with good wear resistance
- reliable bonding system for long life
- low cost answer for wet end service rolls, dryer rolls, and paper carrying rolls
- excellent tear resistance provides an extremely tough cover
